 Scott,

The Byrds... man, I have a vinyl from "Sweetheart of The Rodeo", circa 1964 ??? or 65 ???. I've burned all my music from vinyl to mp3. It took me about two years for about 300+ albums. If you ever want to download some of my old stuff you can always grab it off at: <http://63.195.56.239/music> or <ftp://63.195.56.239/music> using the userid and password of ftpuser for both. The sub directory is at: <http://63.195.56.239/music/TheVinylProjects/Byrds/>

I plan on getting your CD from your site ? if it still active ????? I've got your web page up as a reminder to do this in the next day or so. Maybe the rest of the hodads will follow suit. I really liked what I heard. Did you do the vocals as well ??

Going out next weekend down in Carmel. Stop on by if you want or in the area. Cell phone is 510.693.6815.

PS This reminds me that one of the Sandals, "Endless Summer" soundtrack, lives in Carmel. I think he owns Casanova's Restaurant and a pretty well known winery out in Carmel Valley (Georis Winery).

 Cal:

I can't believe you found me on the Byrds page. That was probably the best gig I ever had. Not only did they treat us like royalty in Europe, the band stayed at the finest hotels and enjoyed many great days off throughout Sweden, France, Germany, etc. Thanks for plugging the album. I hope you and the surfer group enjoy the music. I went after a beach sounding record so pour a rum drink and enjoy!

I only have a few more sessions as well. Kind of got used to hanging out with Michelle and Sean. Nice people.

Catch some waves!

 Left.... are you a goofy foot like a couple of us (me included) ? Corky Carroll; I met him several years back when taping a show for the local television company down in Long Beach, CA. He seemed OK. Tell you what though, his guitar solo in "Five Summer Stories" is pretty good.

Let me know if you need a DVD copy of that one. They probably still sell the VCR tapes at some of the surf shops but the DVD never got released to do family squabbles between the Gillvery and Freeman families.

Nice board. Is it yours ? How old, size ???

Let me know on the DVD.

 Yes it is. A 9'2" signed by one of our SoCal friends, Corky Carroll. Thanks for sending our link out to the hodads.

Went to Pacifica yesterday. Gorgeous day, 3-5 foot not bad at all. The line-up was pretty packed at the south end so it was tough finding a vacant wave. Caught one of the best lefts of my 9 year surfing life.

 OK... I like it.

Attached, find a sampling of Scott's new album. Also, looks like you can order of his web site. Just unzip the m3u links from the folder and drop them into your mp3 player, ie., Windows Media or, as I prefer, WinAmp.

Say, is that a G-S board I see in the background ??????

Scott, I heard from Michelle that you were a musician. Would that be you on the left ??? I haven't had a chance to hear your music yet but it is now on my mind.
